# 1. Introduction to Jiangsu University

Located in the historic and vibrant city of Zhenjiang, Jiangsu Province, China, Jiangsu University (JSU) was founded in 1902 and has evolved into a comprehensive institution over its 119-year history. JSU is well-known among China's best institutions for its 13 bachelor's degree programs taught in English, distinguishing it from the competition. Around 2300 international students from worldwide have enrolled in undergraduate and postgraduate programs by 2021. JSU is steadily rising through the ranks and is currently rated among the top 1000 universities in the world, the top 188 in Asia, according to the Times Higher Education. In China, JSU ranks No.38 among over 3000 higher education institutions.

JSU provides students with a better knowledge of Chinese culture and traditions by visiting historical museums and places. JSU is famous for its innovative teaching methods and vibrant student life. Mixing classwork with adequate immersion in extracurricular activities has always been the genuinely excellent academic method with the most promising result.

International multilateral cooperation is nowadays so much valued that JSU initiated and participated in many international alliances to promote study and research. Jiangsu University "Belt and Road" University-enterprise Alliance for Educating and Cultivating International Talents is the first local university-enterprise alliance with the mode of "1+N" in China. It builds a new platform for international talents and develops a new mode for cultivating diverse talents at home and abroad, which comprehensively improves the quality and level of international talent training and achieves more and greater cooperation results.

JSU enjoys a national reputation of being among the top comprehensive academic institutions for engineering sciences with several innovative awards and patents for its achievement and contribution to China. Other academic disciplines have also witnessed considerable growth in their research faculty and the quality of graduates they turn out yearly.

These years JSU has promoted many institutions for the international education. Experts and scholars, entrepreneurs and students at home and abroad pool their wisdom and call for the synergies between industries, universities and other institutes. In particular, “Belt and Road” College of International Talents and Industry-Education Integration Research Institution are expected to complement each other in a positive way, fostering the development paradigm with domestic and international circulations, in order to boost the high-quality international education.

The above all efforts have continually made JSU enjoy an influx of international students from all continents with resultant increased growth in linkages and exchange programs with other educational institutions around the world.

## 2. Bachelor Programs

### 2.1 What Makes JSU's Bachelor Programs Unique?

#### Virtual Interaction

- ✧ We have been delivering customized e-learning via numerous mediums for international students who are unable to come to China owing to the epidemic.

#### Hands-on Experience

- ✧ Our students study fundamental and applied professionalism and the influence of education on the competitiveness and sustainability of an organization.
- ✧ Throughout the course, the significance of ethical, social, moral, and personal responsibility is emphasized. It is ingrained in our classrooms and hands-on learning activities.
- ✧ We investigate the worldwide environmental influence on academic disciplines, and our courses teach students how practices in other nations and cultures vary considerably.
- ✧ Across each major, we develop principles, which become themes that are pursued across the curricula and any contextual learning opportunities. It's all part of our attempt to assist students in remembering what they have learned and provide them with a solid platform to build well throughout their educational journey and beyond.
- ✧ The university-enterprise cooperation breaks the relatively closed school-running mode, directly merging knowledge innovation and talent training into the industrial upgrading, regional development and national strategic environment, and actively enriches the job-oriented undergraduate programs.

## 2.2 Bachelor Programs in English Medium

Bachelor programs in English medium are organized into six groups:

Group	Categories	Majors
1	Business & Economics	1. Accounting 2. Business Administration 3. Corporate Finance 4. E-Commerce 5. International Economics and Trade
2	Mechanical Engineering & Materials Science and Engineering	6. Mechanical Design, Manufacturing & Automatization 7. Materials Science and Engineering
3	Food, Chemistry & Pharmacy	8. Chemical Engineering and Process 9. Food Science and Engineering 10. Pharmacy
4	Computer Science	11. Computer Science and Technology
5	Civil Engineering	12. Civil Engineering
6	Medicine	13. Clinical Medicine (MBBS)

\* Students admitted for a specific group will study one year together with all students who are in the same group, possibly changing their major after completing the first year.

# Business & Economics

S/N	Name of Program	Duration	Seats
1	Accounting	4 years	15
2	Business Administration	4 years	30
3	Corporate Finance	4 years	15
4	E-Commerce	4 years	15
5	International Economics & Trade	4 years	30

# Accounting

## Program Introduction

This program aims to create high-quality graduates who are both rigorous and inventive, along with excellent technical skills and well-developed and professional reasoning and problem-solving abilities. Accounting informs decision-makers, managers, investors, creditors, labor unions, government regulators, and anyone interested in a business organization's financial circle and future. Accounting is a great place to start for ambitious leaders who want to play a key role in driving organizational success. Students will learn how to make strategic business decisions by developing analytical thinking and data abilities. The curriculum will be organized around three main topics: accounting, management, and economics.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	18,000 CNY per Academic Year
<b>College or Department:</b>	School of Finance and Economics
<b>Graduation Requirements:</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. Acc

## Key Courses:

Accounting	Fundamental Accounting, Financial Accounting, Auditing, Accounting Practice of Informatization and Cost Accounting
Management	Principles of Management, Financial Management
Economics	Micro-economics, Macro-economics, Economic Law

# Business Administration

## Program Introduction

JSU BBA curriculum, which already has a solid reputation among companies, provides students with a comprehensive understanding of business administration from both a holistic and methodological standpoint. Throughout the curriculum, we lay a strong emphasis on developing our students' personalities and honing their communication abilities. JSU expects its students to be not only thoroughly familiar with all essential and current business concepts and practices, but also to be able to think analytically and creatively, and most importantly, to apply their acquired knowledge judiciously in practical situations they may encounter in a professional context after graduation. Students can become acquainted with Business Regulation, Trade Rules, and Economic Performance Analysis. Students can also use the various SEMs labs and engage in quantitative and qualitative data gathering, processing, and management software use.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	18,000 CNY per Academic Year
<b>College or Department</b>	School of Management
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4.
<b>Degree Awarded</b>	B.Sc. BBA

## Key Courses

Economics	Principles of Economics, Economic Law
Accounting & Finance	Operational Research, Business Statistics, Accounting, Financial Management
Management	Principles of Management; Operation Management, Human Resource Management, Organization Behavior;

# Corporate Finance

## Program Introduction

As a graduate of this financial management degree, you will be able to read and comprehend financial accounts, analyze company proposals, and learn about the capital and money markets. Corporate Finance, as an honorary program at our university, offers students a diverse range of academic opportunities as well as a potential professional path. This curriculum covers the most recent financial theories and international accounting standards as they apply to public businesses, multinational corporations, and international capital markets. We place a high value on improving students' employment skills. JSU has established its UpSkill initiative, which strengthens and develops the abilities that are most in demand in the job market, ensuring that our graduates have a competitive advantage in job applications.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	18,000 CNY per Academic Year
<b>College or Department</b>	School of Finance and Economics
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. Corporate Finance

## Key Courses

Courses include Financial Management (from primary to advanced)		Accounting (IFRS)	Managerial Accounting	Corporate Financial Management
Financial Analysis	International investment	Multinational Financial Management	International Accounting	International Settlement

# E-Commerce

## Program Introduction

Students interested in obtaining a bachelor's degree in electronic commerce can enroll in the undergraduate program at the School of Management. This curriculum provides the technical and management expertise required to solve company problems and capitalize on Internet-created possibilities. Students learn how to develop, plan, construct, and manage e-commerce systems, as well as how to incorporate them into an organizational information strategy. This program seeks to develop high-level, multidisciplinary, specialized, and inventive skills with understanding of management, economics, law, computer science, and electronic commerce, as well as the humanistic spirit, scientific quality, credibility, and honesty. Graduates are equipped to work as e-commerce consultants, information administrators, or technical managers.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	18,000 CNY per Academic Year
<b>College or Department</b>	School of Management
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. Electronic Commerce

## Key Courses

Principle of Management	Economics	Electronic commerce	Electronic commerce network and communication	Database principle and application
Electronic commerce security and payment	Internet marketing planning and practice	Customer relationship management	Business big data analysis and mining	Electronic commerce webpage and website design

# International Economics and Trade

## Program Introduction

The program's goal is to develop advanced specialized and multidisciplinary abilities for doing business and managing in foreign economies and trade sectors, as well as multinational corporations. Graduates will have a solid understanding of economic fundamentals, basic theories and practices of international trade, the evolution of modern international economics and trade, the social, economic, and cultural conditions of major trading partners, and the current state and future trends of modern science and technology. Graduates will be conversant with current international trade norms and practices, as well as China's foreign economic, trade, and regulatory policies.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	18,000 CNY per Academic Year
<b>College or Department</b>	School of Finance and Economics
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. IET

## Key Courses

Principles of Management	International finance	Microeconomics	Theory of international trade	Money and banking
Practice of international trade	International marketing	Statistics	World economy	Commodity studies of foreign trade
Econometrics	Multinational management	International technology trade	International business negotiation	

# Mechanical Engineering & Materials Science and Engineering

S/N	Name of Program	Duration	Seats
1	Mechanical Design, Manufacturing and Automatization	4 years	15
2	Materials Science and Engineering	4 years	15

# Mechanical Design, Manufacturing and Automation

## Program Introduction

This major is designed to nurture applied engineering technology talents with the all-around growth of morals, intelligence, and physique that have the capacity to create, study, and technical manage mechanical and electrical goods using professional knowledge, as well as having strong application and development of engineering software. After graduation, students can work in mechanical design and production, engineering software application and development, and technical economic management in processing and manufacturing enterprises, national institutions, and scientific research colleges and universities. To comprehensively grasp the fundamental theories and knowledge of this major, as well as to be capable of drawing, designing, computing, experimentation, testing, document retrieval, and basic processing operations relevant to this major, as well as good computer application.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	20,000 CNY per Academic Year
<b>College or Department</b>	School of Mechanical Engineering
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.M.E

## Key Courses

Mechanical Engineering	Mechanics	Fluid Dynamics
Basics of Mechanical Manufacturing Technology	Fundamentals of Control Engineering	Electrotechnics and Electronics
	Electromechanical Transmission Control	Engineering Graphics

# Materials Science and Engineering

## Program Introduction

The Bachelor of Science in materials science and engineering program is comprehensive in scope, covering a wide spectrum of materials and allowing students to comprehend the fundamental principles that control the connections between processing, structure, characteristics, and material performance. Students are also taught how to apply these concepts to the methodical design of novel materials.

MSE is a major focused on the structures and properties of all engineering materials. MSE graduates have a broad understanding of materials science and technology and can work as materials research workers or materials engineers, creating, manufacturing, analyzing, and testing a wide range of materials. Honors graduates can pursue careers in materials design and production, materials processing, manufacturing, or other related industries through research, education, development, and management.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	20,000 CNY per Academic Year
<b>College or Department</b>	School of Materials Science and Engineering
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. Materials Science and Engineering

## Key Courses

Engineering Graphics	Engineering Mechanics	Engineering Mechanics	Material Chemistry
Fundamental of Material Science	Electrical and Electronic Engineering	Fundamentals of Machine Design	Thermodynamics of Materials
Inorganic Chemistry			Analytic Chemistry

# Food, Chemistry & Pharmacy

S/N	Name of Program	Duration	Seats
1	Chemical Engineering and Technology	4 years	15
2	Food Science and Engineering	4 years	15
3	Pharmacy	4 years	30

# Chemical Engineering and Technology

## Program Introduction

A multidisciplinary area of engineering that integrates natural and experimental science, as well as life sciences, mathematics, and economics, to design, develop, create, transform, transport, operate, and manage industrial processes that convert raw materials into useful products. The program is centered on the study of basic laws of chemical production processes and fundamental concepts, as well as associated production processes, research, designs, and optimization in the chemical engineering field.

The department's mission is to provide academic programs with a strong technical foundation that prepare students for professional practice in areas such as chemical process engineering, the application of chemical principles to industrial processes, problem solving, translating information into new processes and products, and exercising leadership in industry and academia on technical, economic, and social issues.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	20,000 CNY per Academic Year
<b>College or Department</b>	School of Chemistry and Chemical Engineering
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. Ch Eng

## Key Courses

Inorganic and Analytical Chemistry	Organic Chemistry	Physical Chemistry	Chemical Engineering Principles
Basic Chemical Equipment Mechanical	Chemical Meters and Automation	Chemical Reaction Engineering	Chemical Engineering Thermodynamics
Separation Engineering	Chemical Technology	Fine Chemical Technology	Industrial Catalysis
Provincial Key Course: Organic Chemistry			

# Food Science and Engineering

## Program Introduction

The curriculum gives students a solid understanding of all elements of food processing, including product creation that is in line with the most recent processing and industrial processes. BS Food Science and Technology is one of the fastest expanding disciplines, using knowledge not only from chemistry, biology, and food engineering, but also from business. The food technology program is intended to educate students with the most up-to-date information on sensory evaluation methodologies, innovative functional meals, and current food laws and regulations.

The goal is to instill in the student a knowledge of the nature, qualities, and features of foods as defined by biochemistry, chemistry, microbiology, physics, statistics, and nutrition. This curriculum teaches students about food processing, texture, flavor, food formulations, product development, and food safety. Students will explore activities used to preserve foods as well as unique methods utilized to manufacture daily goods.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	20,000 CNY per Academic Year
<b>College or Department</b>	School of Food and Biological Engineering
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. FST

## Key Courses

Microbiology	Biochemistry	Organic Chemistry	Food Processing Machinery and Equipment
Modern food Detection Technology	Principle of food Engineering	Food Analysis	

Food Processing Machinery and Equipment and Modern Food Detecting Techniques have been certified as "National Quality Courses"

# Pharmacy

## Program Introduction

The science and technology of producing and delivering medicines are the focus of pharmacy. It is a health profession that integrates health and chemical sciences to assure the safe and effective use of pharmaceutical medicines. The scope of pharmacy practice encompasses current health-care services such as clinical services, pharmaceutical safety and efficacy reviews, and drug information. Students will master the foundation of pharmaceutical sciences during their studies. They will learn about subjects such as medicine, chemistry, biology, and even ethics.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	22,000 CNY per Academic Year
<b>College or Department</b>	School of Pharmacy
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B. Pharm

## Key Courses

Physical chemistry	Chemical engineering principle	Medicinal chemistry
Pharmaceutical analysis	Pharmacology	Pharmaceutical polymers
Industrial pharmacy	Biopharmaceutics and Pharmacokinetics	Process design workshop

# Computer Science

S/N	Name of Program	Duration	Seats in 2 Intakes	
			March (Spring)	September (Autumn)
1	Computer Science and Technology	4 years	10	30

# Computer Science and Technology

## Program Introduction

The Computer Science program provides a strong technical foundation for students wanting to enter the workforce after graduation as well as those interested in pursuing doctoral studies in computer science. Students will learn how to deal with cutting-edge technologies and will be able to choose extra modules that suit their interests and professional goals, ranging from cloud computing to bio-computation and machine learning. The emphasis is on acquiring both the software programming and hardware design skills required to start and improve an in this degree are well equipped for instant work in the computer industry or many other industries that increasingly rely on computer science.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	20,000 CNY per Academic Year
<b>College or Department</b>	School of Computer Science and Communication Engineering
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. CST

## Key Courses

Programming in C++	Database Principle	Discrete Mathematics	Computer Architecture
Digital Logic Circuit Design	Principles of Microcomputer and Interfacing Technology	Data Structure	Digital Image Processing
Computer Organization		Operating System	Computer Networks
Software Engineering	The Design and Analysis of Algorithms		

# Civil Engineering

S/N	Name of Program	Duration	Seats in 2 Intakes	
			March (Spring)	September (Autumn)
1	Civil Engineering	4 years	10	30

# Civil Engineering

## Program Introduction

Civil engineers have a lot of creative and technical leeway, and they get to view their work from a window or a rooftop. Civil engineering is concerned with the design and supervision of construction projects such as buildings, roads, bridges, and railways. It is one of the oldest engineering specialties, and civil engineers play a vital role in meeting human requirements. Civil engineers lay the groundwork for the start of each new project. The goal of the Civil Engineering Program is to provide students with professional and scientific information that will enable them to become effective performers in any sector, as well as to use civil engineering knowledge, problem solving abilities, and communication strategies. They can work in groups or as leaders, using ethical norms and processes codes of ethics within and outside traditional disciplinary learning.

<b>Program Duration</b>	4 Years
<b>Tuition</b>	20,000 CNY per Academic Year
<b>College or Department</b>	School of Civil Engineering and Mechanics
<b>Graduation Requirements</b>	Pass all credits; Finish graduation project and defense; Pass HSK level 4
<b>Degree Awarded</b>	B.Sc. CE

## Key Courses

Engineering Mechanics	Steel Structure Design Principles	Structural Mechanics	Bridge Engineering
Foundation Engineering	Road Surveying and Design	Civil Engineering Materials	Engineering Economics
Civil Engineering Surveying and Construction	Concrete Structure Design Principle	Engineering Geology and Soil Mechanics	Architectural Structure Design
			Architecture and Planning

# Clinical Medicine

S/N	Name of Program	Duration	Seats in 2 Intakes	
			March (Spring)	September (Autumn)
1	Clinical Medicine (MBBS)	6 years	30	70

# Clinical Medicine (MBBS)

## Program Introduction

Jiangsu University provides a five-year MBBS curriculum with an additional year of on-the-job training. The premedical stage tackles not just a large portion of the science that supports medicine, but also the clinical issues that occur when systems fail. Students are exposed to the various bodily systems and their structures. Furthermore, they are urged to acquire an inquisitive mindset to evaluate the experimental foundation of the course and comprehend clinically relevant issues. During the clinical stage, students will get hospital learning experience and spend a significant amount of time with patients.

<b>Program Duration</b>	6 Years
<b>Tuition</b>	34,000 CNY per Academic Year
<b>College or Department</b>	School of Medicine
<b>Graduation Requirements</b>	Collect all credits; Finish graduation project and defense; Pass HSK level 4; Complete 1-year internship
<b>Degree Awarded</b>	M.B.B.S

## Key Courses

Histology	Organic Chemistry	Regional Anatomy	Pharmacology
Surgery	Pediatrics	Emergency	Internal Medicine
Radio diagnosis	Otorhinolaryngology	Medicine	Neurology
Geriatrics		Ophthalmology	Oncology

## 2.3 Bachelor Programs in Chinese Medium

### Science & Engineering

Agricultural Electrification

Agricultural Mechanization and Automation

Applied Chemistry

Automation

Biological Technology

Biomedical Engineering

Chemical Engineering and Technology

Chemistry

Civil Engineering

Communication Engineering

Composite Materials and Engineering

Computer Science and Technology

Electrical Engineering and Automation

Electronic Information Engineering

Energy and Power Engineering

Engineering Management

Engineering Mechanics

Food Quality and Safety

Food Science and Engineering

Information Safety

Internet of Things Engineering

Material Shaping and Control Engineering

Materials Science and Engineering

Measurement and Control Technology and Instruments

Mechanical Designing and Manufacturing Automation

Mechanical Electrical Engineering

Metallic Materials Engineering

Metallurgic Engineering

Optic Information Science and Engineering

Polymeric Materials Engineering

Traffic and Transportation

Traffic Engineering

Vehicle Engineering

## Arts & Social Sciences

Animation

Teaching Chinese to Speakers of Other Languages

Chinese Language and Literature

Digital Media Arts

Environmental Design

Industrial Design

Product Design

Visual Communication Design

## Economics & Management

Accounting

Business

Administration

Corporate Finance

E-Commerce

Finance

Human Resources Management

Industrial Engineering

Information Management and  
Information Systems

Insurance

International Economics and Trade

Logistics Management

Marketing

Public Affairs Management (Medical Insurance)

Statistics

## Medicine & Pharmacy

Clinical Medicine

Hygienic Examination & Quarantine

Laboratory Medicine Technology

Medical Imaging

Medicine Engineering

Nursing

Pharmaceutical Science

Pharmacy

---

Program Duration: 4 Years (Clinical Medicine in Chinese 5 years)

Intake: September

All Chinese medium bachelor programs are open to overseas students. Students with good Chinese language proficiency (HSK 4 or above) can apply for Chinese taught programs and join classes with Chinese students. Students applying for bachelor programs will get 40% discount on tuition fee.

## 3. Master Programs

### 3.1 Science & Engineering

Agricultural Engineering  
Biological Medical Engineering  
Chemical Engineering and Technology  
Civil Engineering  
Computer Science and Technology  
Control Science and Engineering  
Ecology  
Electrical Engineering  
Electronic Science and Technology  
Environmental Science and Engineering  
Food Science and Engineering  
Hydraulic Engineering  
Information and Communication Engineering  
Instrument Science and Technology  
Materials Science and Engineering  
Mechanical Engineering  
Mechanics  
Metallurgic Engineering  
Power Engineering and Engineering Thermophysics  
Traffic Engineering  
Vehicle Engineering  
Biology  
Chemistry  
Mathematics  
Optical Engineering  
Physics

### 3.2 Economics & Management

Accounting  
Applied Economics  
Business Administration  
Management Science and Engineering  
MBA  
Public Administration  
Statistics

### 3.3 Arts & Social Sciences

\*Teaching Chinese to Speakers of Other Languages (In Chinese)  
\*Chinese Language and Literature (In Chinese)  
Foreign language and Literature  
Fine Arts  
Library Information  
Library, Information and Archives Management  
Law  
Pedagogy

### 3.4 Medicine & Pharmacy

Clinical Medicine (Clinical Laboratory Medicine)  
Clinical Medicine (Dermatology and Venerology)  
Clinical Medicine (Gynecology and Obstetrics)  
Clinical Medicine (Imaging and Nuclear Medicine)  
Clinical Medicine (Internal Medicine)  
Clinical Medicine (Neurology)  
Clinical Medicine (Oncology)  
Clinical Medicine (Otolaryngology)  
Clinical Medicine (Pediatrics)  
Clinical Medicine (Surgery)

Chinese Materia Medica  
Human Anatomy, Histology and Embryology  
Immunology  
Nursing  
Pathogenic Biology  
Pathology and Pathophysiology  
Pharmaceutical Science

---

Duration for all the above master degree programs is three years (except MBA and Law). The instruction medium could be either English or Chinese. For graduation, students will have to meet all requirements relating to article publishing, thesis writing, defense, etc.

## 4. Ph.D. Programs

Program Duration: 4 Years

Teaching Language: English or Chinese

Agricultural Engineering

Clinical Medicine

Computer Science and Technology

Control Science and Engineering

Electrical Engineering

Environmental Science and Engineering

Food Science and Engineering

Instrument Science and Technology

Management Science and Engineering

Materials Science and Engineering

Mechanics

Mechanical Engineering

Power Engineering and Engineering Thermophysics

Traffic Engineering

Vehicle Engineering

Clinical Medicine (Clinical Laboratory Medicine)

Clinical Medicine (Dermatology and Venerology)

Clinical Medicine (Gynecology and Obstetrics)

Clinical Medicine (Imaging and Nuclear Medicine)

Clinical Medicine (Neurology)

Clinical Medicine (Otolaryngology)

Clinical Medicine (Oncology)

Clinical Medicine (Pediatrics)

---

Duration for all the above Ph.D. degree programs is four years. The instruction medium could be either English or Chinese. For graduation, students will have to meet all requirements relating to article publishing, thesis writing, defense, etc.

## 5. Pre-University Foundation Program

### 5.1 Program Introduction

This program is going to prepare for your college study in a dynamic, supportive environment. JSU offers non-credit pre-university courses, and are designed as refresher courses for students who need improvement in the subjects considered essential for related first-year courses at JSU. At the end of the course, students who wish to take bachelor's degree courses at JSU need to apply for "Admission Entrance Exam for Overseas Students". Students who score well will be admitted to the next intake for bachelor's degree students.

Subjects: Mathematics, Physics, Chemistry, English

Duration: 1 semester

Fees: 7800CNY

Intake: March and September

### 5.2 Teaching Objectives

Subject	Teaching Objectives
Mathematics	Pre-U Mathematics course is built on a core set of educational aims to prepare basic-level learners for university admission. Throughout this course, learners are expected to develop two parallel strands of mathematics: pure mathematics and a positive attitude towards an understanding of mathematics and mathematical processes.
Physics	This course covers the topics essential for first year university physics. Successful completion of this course fulfills the University admission requirements where high school Physics is necessary.
Chemistry	The main objectives are of making students complete basic foundations in chemical reagent, chemical reactions and the rules that govern chemical reactions, and become familiar with the scope, methodology and applications of modern chemistry.
English	This is a foundation English course for pre-university students. Since some students may be less qualified in English, which will influence their study and communication if they are enrolled. This course is open to equip them with basic English knowledge and skills.

### 5.3 Student's Feedback

**FATHIYA MOHAMED SAID from Tanzania, 2018**

*"Doing foundation at Jiangsu University was the best choice I made before starting my main major because it enabled me to fill the gaps in knowledge and this gave me a solid foundation in the important subjects in my major (MBBS). This was evidently seen in my scores when I started MBBS. I remember I was one of the highest scorers in my physics class during my MBBS program and this was because of the opportunity I got to fill the gap in my knowledge before starting. Doing other subjects in foundation also allowed me to review my previous knowledge of other subjects, improve in my knowledge and this gave me more confidence when I finally started my major. My best part in foundation was being able to learn Chinese before my main degree and this undoubtedly enabled me to understand the language better and develop interest in it....."*

*This program also allowed me to get used to Jiangsu University education system very early on and this made my first year in my major go by very smoothly because I was already used to how things were taught, tested and done. As a result, I am now one of the outstanding students in my year among other several outstanding students who have been able to win several national and international competitions, qualify in receiving up to provincial scholarships and proudly represent well the Overseas Education College of Jiangsu University!"*

## 6. Scholarships

JSU offers many kinds of scholarships to international students. For more details about scholarships, please visit our website: <https://oec.ujs.edu.cn/en/SCHOLARSHIPS.htm>  
Overseas Education College (OEC) of JSU reserves the right to explain all scholarships.

### 6.1 China Scholarship Council (CSC)

Funds by: Chinese Government

Scholarship type: Full Scholarship (Tuition + Accommodation + Living Expenses)

Applicants: Students of bachelor, master and Ph.D. programs

Application Information: <https://oec.ujs.edu.cn/jxj/zgzfjxj.htm>

---

The Agency Number of Jiangsu University is **10299**.

Age limit: CSC undergraduate (25), PG (35), Ph. D. (40)

### 6.2 International Chinese Language Teachers Scholarship

Scholarship winners are exempt from tuition, accommodation fees on campus, and are provided with monthly living allowance, and comprehensive insurance for foreign students studying in China.

---

Funds by: Center for Language Education and Cooperation (CLEC)

Scholarship type: Full Scholarship (Tuition + Accommodation + Living Expenses)

Applicants: Students of bachelor, master, non-degree

Scholarship amount: CNY 2,500 for Bachelor's degree students, one-academic-year students and one-semester students. CNY 3,000 for Master's degree students.

Website: <https://cis.chinese.cn/account/login> for scholarship application

### 6.3 Jiangsu Provincial Scholarship

In order to further promote the development of international students' education in Jiangsu Province, creating a "Study in Jiangsu" brand, and to enhance international attractiveness of Jiangsu higher education, Jiangsu Provincial government has set up the "Study in Jiangsu Government Scholarship".

Funds by: Jiangsu Provincial Department of Finance and Department of Education

Scholarship type: One-time Scholarship

Applicants: Full-time degree students (both undergraduates and postgraduates) in their second year or above.

\*(Students who have ever got Chinese Government Scholarship or Jiangsu Provincial Scholarship CANNOT apply this scholarship.)

Application time: Subject to the document of Jiangsu Provincial Department of Education

Scholarship amount: 18,000CNY for undergraduates;

30,000CNY for postgraduate students

### 6.4 Jiangsu University Presidential Scholarship

In order to further develop the education of international students, Jiangsu University provides scholarship for international students getting registered for English-taught degree programs.

Funds by: Jiangsu University

Scholarship type: Partial Scholarship (discount on tuition)

Applicants: All master and Ph.D. students and some bachelor\* students

Application time: During admission

Scholarship amount:

Ph.D.s: Full tuition and on-campus accommodation + 5000 CNY Stipend (Type A)

Full tuition and on-campus accommodation (Type B)

Masters: 25,000 CNY per year (Type A)

20,000CNY per year (Type B)

Bachelors (English-taught): 10,000 CNY in the first year

(\*Students from targeted countries: 10,000 CNY/year on tuition every year)

Type A: New programs	Freshmen from <ul style="list-style-type: none"> <li>● Material Science and Engineering</li> <li>● E-Commerce</li> <li>● Corporate Finance</li> </ul>
Type B: Others	Freshmen passing the baseline exam in the top 10% or Top 2
From the second year, it is subject to the latest notice.	

**Terms and Conditions:**

● Only applicable to overseas students who take English-taught degree programs. Students applying for Chinese-taught bachelor programs can get a 40% discount on tuition fee.

● The JSU Presidential Scholarship to graduate students will be renewed once a year after annual evaluation of the students' performance (awarded scholarship from the second year may increase or decrease according to evaluation points). Refer to our website for more details on JSU presidential scholarship.

● Transferring of major by students who availed JSU Presidential Scholarship in the first year, shall be approved only after the student compensates the scholarship amount back to the university.

● Age Limits: 25 for undergraduates, 30 for masters, 40 for Ph.Ds.

● JSU reserves the right to explain or change the scholarship policy if necessary.

## 6.5 JSU School/Department Scholarships

No.	School / Faculty	Candidate	Funding Period	Coverage (CNY)	Funding Quota
1	School of Finance and Economics	Bachelor	Schooling	1,000	≤10%
		Master	Schooling	2,000	100%
		Ph.D.	Schooling	4,000	100%
2	School of Management	Ph.D.	Schooling	4,000 / 2000	30% / 30%-70%
3	School of Mechanical Engineering	Bachelor	2 <sup>nd</sup> -3 <sup>rd</sup> year	600~2,000	10 applicants
		Master	2 <sup>nd</sup> -3 <sup>rd</sup> year	1,500~2,000	All
		Ph.D.	2 <sup>nd</sup> -3 <sup>rd</sup> year	2,000~3,000	All
4	School of Computer Science and Telecommunications Engineering	Master	1 <sup>st</sup> year	1,000	100%
			2 <sup>nd</sup> -3 <sup>rd</sup> year	1,000~8000	≥40%
		Ph.D.	1 <sup>st</sup> year	2000	100%
			2 <sup>nd</sup> -3 <sup>rd</sup> year	1,000~12,000	≥40%
5	School of Agricultural Equipment Engineering	Master	1 <sup>st</sup> year	6,000	According to performance
			2 <sup>nd</sup> -3 <sup>rd</sup> year	6000~16,000	According to performance
		Ph.D.	1 <sup>st</sup> year	16,000	According to performance
			2 <sup>nd</sup> -3 <sup>rd</sup> year	16,000~26,000	According to performance

No.	School / Faculty	Candidate	Funding Period	Coverage (CNY)	Funding Quota
6	Faculty of Law	Master	Schooling	3,000	100%
7	School of Automotive and Traffic Engineering	Bachelor	Schooling	5,000	5 applicants
		Master	Schooling	5,000	5 applicants
		Ph.D.	Schooling	10,000	100%
8	School of Food and Biological Engineering	Bachelor	1 <sup>st</sup> year	4,000	All
			2 <sup>nd</sup> -4 <sup>th</sup> year	4,000	50%
		Master	Schooling	5,000~18,000	All
		Ph.D.	Schooling	5,000~30,000	All
9	Faculty of Civil Engineering and Mechanics	Master	3 years	2,000	5~6 applicants
		Ph.D.	4 years	5,000	2~3 applicants
10	School of Pharmacy	PG students	Schooling	3000/2000/1000	10% / 20% / 30%
11	School of Materials Science and Engineering	Bachelor	1 <sup>st</sup> year	10,000	All
			2 <sup>nd</sup> -3 <sup>rd</sup> year	2,000-10,000	All
		Master	3 years	5,000-15,000	All
		Ph.D.	3 years	6,000-24,000	All

No.	School / Faculty	Candidate	Funding Period	Coverage (CNY)	Funding Quota
12	Research Center of Fluid Machinery Engineering and Technology	Master	Schooling	1500-1000 per month	100%
		Ph.D.	Schooling	1200-2000 per month	100%
13	School of literature	Master	1 <sup>st</sup> year	2,000	≤50%
14	School of medicine	Master	Schooling	3,000~5,000	According to performance
15	School of Energy and Power Engineering	Bachelor	Schooling	1,000~3,000	30%-50%
		Master	Schooling	5000	100%
		Ph.D.	Schooling	10000	100%
16	Automotive Engineering Research Institute	Master	Schooling	5000	5 applicants
		Ph.D.	Schooling	10000	100%

Note:

Different schools reserve the right of explanation. Please check with different schools for details.

## 6.6 OEC Scholarship for Excellent Students

To encourage students with good academic performance, Overseas Education College (OEC) of JSU awards excellent students. During the beginning of every academic year, an annual assessment will be made and a fair selection will be published.

Funds by: Jiangsu University

Scholarship type: One-time scholarship

Prize	Amount	Ratio (acc. to class rank) % of Total Students
First Prize:	3,000 CNY	3%
Second Prize:	1,000 CNY	8%
Third Prize:	500 CNY	17%

Beneficiaries: All bachelor students

Evaluation time: Beginning of every academic year

## 6.7 JSU Scholarship for Social Contributors

The Overseas Education College of JSU encourages students to cultivate overall- personal development, apart from academic excellence. Students who make special contributions to social and extra-curricular activities will be chosen and appraised every year.

Funds by: Jiangsu University

Scholarship type: One-time scholarship of 500 CNY

Beneficiaries: All overseas students

Evaluation time: Beginning of every academic year

## 6.8 “Longshun Metal” Scholarship

The "Longshun Metal" Scholarship is designed to stimulate the enthusiasm of overseas students to study in Jiangsu University. It helps students having financial difficulties or those actively contribute to the "Belt and Road" development. This scholarship is targeted to fund for students from Belt and Road co-construction countries and regions (Pakistan, Algeria, Egypt, Benin, Togo, Ghana, the Middle East, Nigeria, Brazil, Panama, Mexico, India, Thailand, Vietnam, etc.).

Funds by: Zhenjiang Longshun Metal Technology co., Ltd.

Scholarship type: One-time scholarship from CNY5,000 to CNY30,000

Beneficiaries: All overseas students

Evaluation time: Beginning of every academic year

---

Note: Students who receive CSC are not entitled to other scholarship.

## 7. China Stories from Overseas Students

### How JSU's 4Cs strategy push students to success?

**Critical thinking:** Here students can engage in learning experiences that require depth and complexity of thinking as they analyze, infer, compare, reason, interpret, synthesize, and evaluate.

**Collaboration:** JSU support to collaborate with others, respecting knowledge, cultures, differences, and viewpoints.

**Communication:** Communication skills should not just be limited to “verbal” conclusions but “actively” making real-world connections.

**Creativity:** JSU encourages students to demonstrate creativity in many forms and through multiple learning style preferences.

#### ✧ **Kenny Anthony** from Indonesia, Fluid Machinery and Engineering 2017

*“Through embracing diversity and fostering collaboration, JSU students discovered their hidden talents and unlocked all possibilities. During my studies at JSU, I have been elected as Community Teaching Assistant of MIT Center for Transportation and Logistics and have my proceedings paper published by MIT. Through the first-tier platform provided by Jiangsu University. I have been awarded the Chinese Government Outstanding International Student Award in 2020 and the Annual Top 10 Students in JSU in 2021.*

*I am now working for the development of the flagship project of the Belt and Road Initiative, the Jakarta-Bandung High-Speed Railway, to contribute to the shared future of mankind.*

*Jiangsu University has all you need to discover and unleash your potentials. You just need the right platform and to become the best version of yourself.”*

✧ **Walter Munashe Chanaka** from Zimbabwe, MBA 2017

*“‘Show me your wings and I will teach you how to fly’, these are the famous words of Prof. Dean Gao of OEC. Certainly, JSU is a place where talents are cultivated. Anyone can be successful if you have the right support system. I have managed to stay afloat because of the mentorship I receive from OEC and as a result I have managed to attain several awards such as 2017-19 Excellent student scholarship, 2019 CSC scholarship for outstanding overseas students in China, 2019 Zhenjiang Mayor’s award for social contribution, 2020 Excellent Graduate Award, 2021 Alibaba super start promotion ambassador.....*

*JSU is the right place to help you get where you are destined to be. It is the ideal place for you to gain academic skills and soft skills to excel in this contemporary world.”*

✧ **Pulkit Sharma** from India, MBBS 2018

*“JSU is called the ‘Cradle of the Doers’, and rightfully so. I have been awarded various Excellent Student Scholarships in numerous academic and extracurricular activities, including the Jiangsu Government Provincial Scholarship and other Enterprise Scholarships.*

*The JSU life brought the best out of me. In addition to the scholastic achievements, the boundless opportunities that I saw in every extracurricular field helped me broke out of my shell.*

*With due support and encouragement from the school, I performed at the ‘2019 Shared Joy in Jiangsu’ at the Nanjing Headquarters of Jiangsu Broadcasting Corporation. I also won various national, international level Chinese Language Proficiency Competitions including the ‘One Minute Creativity Competition’ organized by the ‘Chinese Bridge Club’.*

*Be it the various national and international level events that enhance various aspects of student life, or more so the intercultural exchanges with the local community, at JSU we get to experience them all.”*

## 8. Admission Procedures

### 8.1 Eligibility

- In good health condition, in accordance with the Health Standard for International Students stipulated by the Ministry of Education, China.
- Good moral character and discipline towards the laws and regulations of the Chinese government and the University.
- Good English or Chinese language proficiency.
- Certificate from highest education attained.

Category of Applications	Eligibility
Undergraduates	Senior high school certificate
Master degree students	Bachelor's degree certificate
Doctoral degree students	Master's degree certificate

- Meeting the requirement for different programs.

### 8.2 Application & Registration Dates

	Application Starting Date	Application Closing Date	Registration Date
Spring Intake	Nov. 12 <sup>th</sup> , 2021	Jan. 12 <sup>th</sup> , 2022	March 2 <sup>nd</sup> -3 <sup>rd</sup> , 2022
Autumn Intake	April 1 <sup>st</sup> , 2022	Jul. 17 <sup>th</sup> , 2022	Sep.7 <sup>th</sup> -8 <sup>th</sup> , 2022

- Registration dates may be postponed due to force majeure.

## 8.3 Application Procedure

Apply through JSU “Online Application System” <http://admission.ujs.edu.cn>

STEP 1: Register your account and activate it.

STEP 2: Fill out the application and upload all required documents as follows

- A passport photo;
- Copy of passport (the photopage)
- Copy of your final degree transcript (Notarized English translation if applicable)
- Copy of your final degree certificate (Notarized English translation if applicable)
- English language proficiency certificate (non-English speaking countries)
- Family financial statement
- HSK-4 certificate (for Chinese-Medium programs only)
- Research proposal (Master and Ph.D. only)
- 2 recommendation letters (Master and Ph.D. only) from professor or associate professor
- Non-criminal Record Certificate
- Foreigner Physical Examination Form

STEP 3: Submit the application and note your application number.

STEP 4: Pay application fee of CNY200 (non-refundable).

STEP 5: E-mail the remittance slip to [admission@ujs.edu.cn](mailto:admission@ujs.edu.cn) if you pay through the bank.

STEP 6: Receive your admission notice through the application portal if accepted.

STEP 7: Pay seat reservation fees (non-refundable) before the due date. E-mail the remittance slip to [admission@ujs.edu.cn](mailto:admission@ujs.edu.cn) if you pay through the bank.

\* Bachelor, Master and Pre-U Students: Pay CNY2,400-CNY18,000

\* Ph.D. Candidates: Pay CNY400-CNY3,000

\* MBBS Students: Pay CNY6,000

\* Non-Degree Students: Contact admission office

PS: This fee is non-refundable but will be deducted from the fee you should be paying after registering on campus. Please check the next page for JSU bank account details.

STEP 8: Receive originals of “Admission Notice” and “JW202/JW201” form by post.

PS: We only issue the Admission Notice, without the JW202/JW201 form, to students who cannot enter China during the pandemic.

STEP 9: Apply for VISA and upload your arrival information at the application portal.

## 8.4 How to Pay

### **METHOD 1:** JSU ONLINE PAYMENT PORTAL (CNY, Wechat Pay, Ali Pay available)

Please open the following link: <http://pay.ujs.edu.cn>

Username: Application number

Password: abc@1234

Only Chinese bank cards are accepted with open online banking. Payments via WeChat and Alipay are also available. If students choose to pay via WeChat and Alipay, they need to wait one working day for the payment data to be transferred.

### **METHOD 2:** ONLINE APPLICATION PORTAL (**USD or other foreign currencies**)

Login to the online application portal and make the payment with Visa, MasterCard, and other major bank cards.

**METHOD 3:** FOR TRANSFERS FROM YOUR COUNTRY (**USD only**), the remittance should be emailed to [admission@ujs.edu.cn](mailto:admission@ujs.edu.cn).

Foreign Currency Account Details:

User Name: JIANGSU UNIVERSITY

Name of the Bank: BANK OF CHINA

Branch: DINGMAOQIAO SUB-BRANCH, ZHENJIANG

Bank Account No.: 5157 5822 6635

Swift Code: BKCHCNBJ95D

**IMPORTANT:** Please note that foreign currency account can only receive USD. Please do not remit other currencies to the USD account. **Payments via banks in China and ATM are not allowed.**

## 8.5 Tips for Faster & Successful Admission

- Always mention your online application number when making inquiries with us.
- Your CV must be complete and continuous until the current year. (Study or work experience) Ensure all information and documents submitted/uploaded are factual and legible.
- Check your admission status regularly.

## 9. Fees

### 9.1 Tuition

Tuition in CNY/Academic Year

	Chinese Linguistics	Social Science, Business, Finance, Management	Science & Engineering	Pharmacy & Arts	Medicine
Bachelor (in English)		18,000	20,000	22,000	34,000
